

Samsung NP-N145-JP02US Screen Replacement

Screen replacement on a Samsung NP-N145-JP02US

Written By: Laura Denali Harbinson

INTRODUCTION

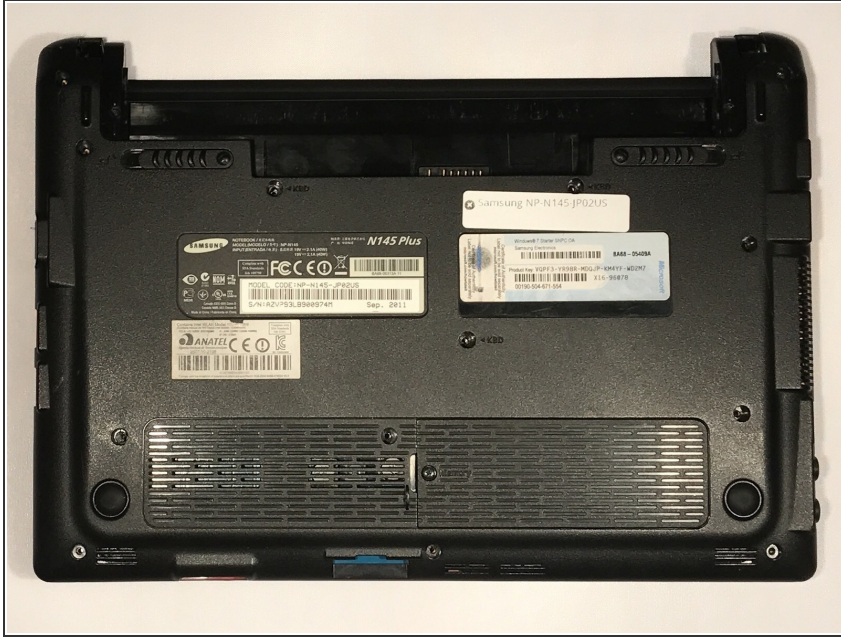

This guide will provide instructions on how to entirely replace the screen of a Samsung N145 laptop. You will be given steps on how to detach a the screen on your device and attach a new one. You will want to perform this replacement when the screen no longer works or randomly blacks out when being used.

TOOLS:

- [iFixit Opening Tools](#) (1)
 - [Phillips #0 Screwdriver](#) (1)
 - [Tweezers](#) (1)
-

Step 1 — Screen

- ❗ Before starting replacement, turn off the device and disconnect all cords.
- Close the device, lay it face down, and remove the battery.

Step 2

- Remove the four black screw covers located at all corners of the screen with tweezers to expose the screws
- Remove the four 4.5 mm screws located at each corner of the screen by using the Phillips #0 screwdriver.

Step 3

- Use a blue prying tool to pry the screen frame off.
- Unscrew the four 6.5mm screws that are securing the screen using Phillips J0 screwdriver head.

Step 4

- Using your fingertips, gently pull screen to pop it out of the frame.

To reassemble your device, follow these instructions in reverse order.
